Croydon Central

Central Shopping Centre

Situated approximately 35 kilometres east of the Melbourne GPO, Croydon Central offers a wide selection of fashion and specialty stores, fresh food options and a relaxing, 'shop easy' atmosphere, complemented by ample car parking and public transport access to meet all of your shoppers needs.

A key consideration for Croydon Central management was minimising any potential down time or disruptions to the shopping centres operation. Lights were replaced in their undercover car park as well as the shopping centres common areas. Our contractors organised install to occur over 4 days before commencement of trading each day. This enabled lights and fittings to be installed with very minimal impact to the shopping centre.

The Upgrade

 **\$62,465**
In Energy Costs Saved per year

 **416,439**
kWh of Energy Not Used per year

 **4,113**
Tonnes of Total CO₂ Abated
