Socobell

Leaders in plastic injection moulding services

Socobell is one of the leading Australian companies in the automotive, medical, electrical and communications field. As an industry leader Socobell was an obvious company to adopt LED lighting technology. In their three Melbourne plants they wanted to reduce both electricity and maintenance costs and through a comprehensive consulting process and testing of our products, installs were completed with a minimum of impact to production.

The Upgrade

1,599
Lights Replaced

\$49,996
In Energy Costs Saved per year

199,985
kWh of Energy Not Used per year
