

AlSCO

Industrial Lighting Upgrade

Textile Rental Service

AlSCO has been providing professional textile rental services throughout Australasia Since 1962. Services offered include a commercial linen service, an extensive uniform range and rubber floor matting. The Ingleburn factory is extensive and accommodates a fleet of delivery trucks in addition to its factory operations.

The organisation's goals were to save money on energy costs and reduce their environmental impact, whilst achieving a high performance, safe, pleasant and productive work environment. These goals had to be achieved in a busy operational environment so planning to ensure minimal disruption to staff was paramount.

**THEY SAVE
\$13,271
PER YEAR**

How the AlSCO upgrade made a difference...

550
Lights Replaced 

 **\$13,271** In Energy Costs Saved per year
