

Integrated Case Study
LED Lighting & Solar PPA
Healthe Care

📍 20+ Sites Nationwide

Healthe Care is the third-largest private hospital operator in Australia with a portfolio of over 30 private healthcare facilities. Through our unique lighting products and detailed Health, Safety, Environmental & Quality delivery planning, we successfully delivered a national LED lighting upgrade and solar PPA solution with a minimal impact on the hospitals' round-the-clock operations. The rollout created nine full-time-equivalent jobs for one year and Healthe Care is saving more than \$4M in electricity bills over the next 10 years while significantly reducing their environmental impact.

"We spent a fair amount of time working with several companies for lighting and solar and found The Green Guys Group to be the best for us in terms of reputation, experience, knowledge and capability. I highly recommend them"

Adam Thompson
National Asset Manager

About The Green Guys Group

As Australia's Leading Energy Saving Partner, we specialise in LED lighting, heat pump water heater, and air conditioning system upgrades, while our Green Guys Solar division offers cutting-edge solar solutions. Our approach includes securing government subsidies to maximise our clients' return on investment. Our comprehensive project management is anchored in ISO certifications in quality management, occupational health & safety, and environmental standards, ensuring quality and safety in every project.
